

## In brief

- Works of scholarship in any discipline.
- Author must be affiliated with UNT.
- All publications are free to read online.
- Author chooses what type of editing, design, and dissemination (beyond online) they want.
- Author pays fees for publishing services but then keeps all royalties on sales.

# The Variable Fee Structure for Eagle Editions

The Scholarly Publishing Service of the University of North Texas Libraries

## Print distribution

A small Print Setup fee allows work to be made available through print distribution channels. Author chooses printer and distributor, and if not using print-on-demand technology, pays for copies in advance.

UNT Press offers to distribute some titles in return for a portion of any sales.

## E-book distribution

E-book files are created if author pays PDF Design & E-book Creation fee. Author can make arrangements with sales channels directly, or we can give away e-book files for free with online version.

2	<b>Eagle Editions cost calculator</b>		
3	This spreadsheet will help you estimate the cost to publish a book with Eagle Editions. Exact costs vary by project.	You update cells with this background color with data about your work.	
4			
5	Number of words in your work If you want your published work to contain complex formatting, such as sidebars, where exact placement on the page is important, type "y" in the cell to the right. Footnotes don't count as "complex".	n	71,656
