Director of Library Publishing

This is a new position at UNT Libraries. I began in May 2014. My main duties are to:

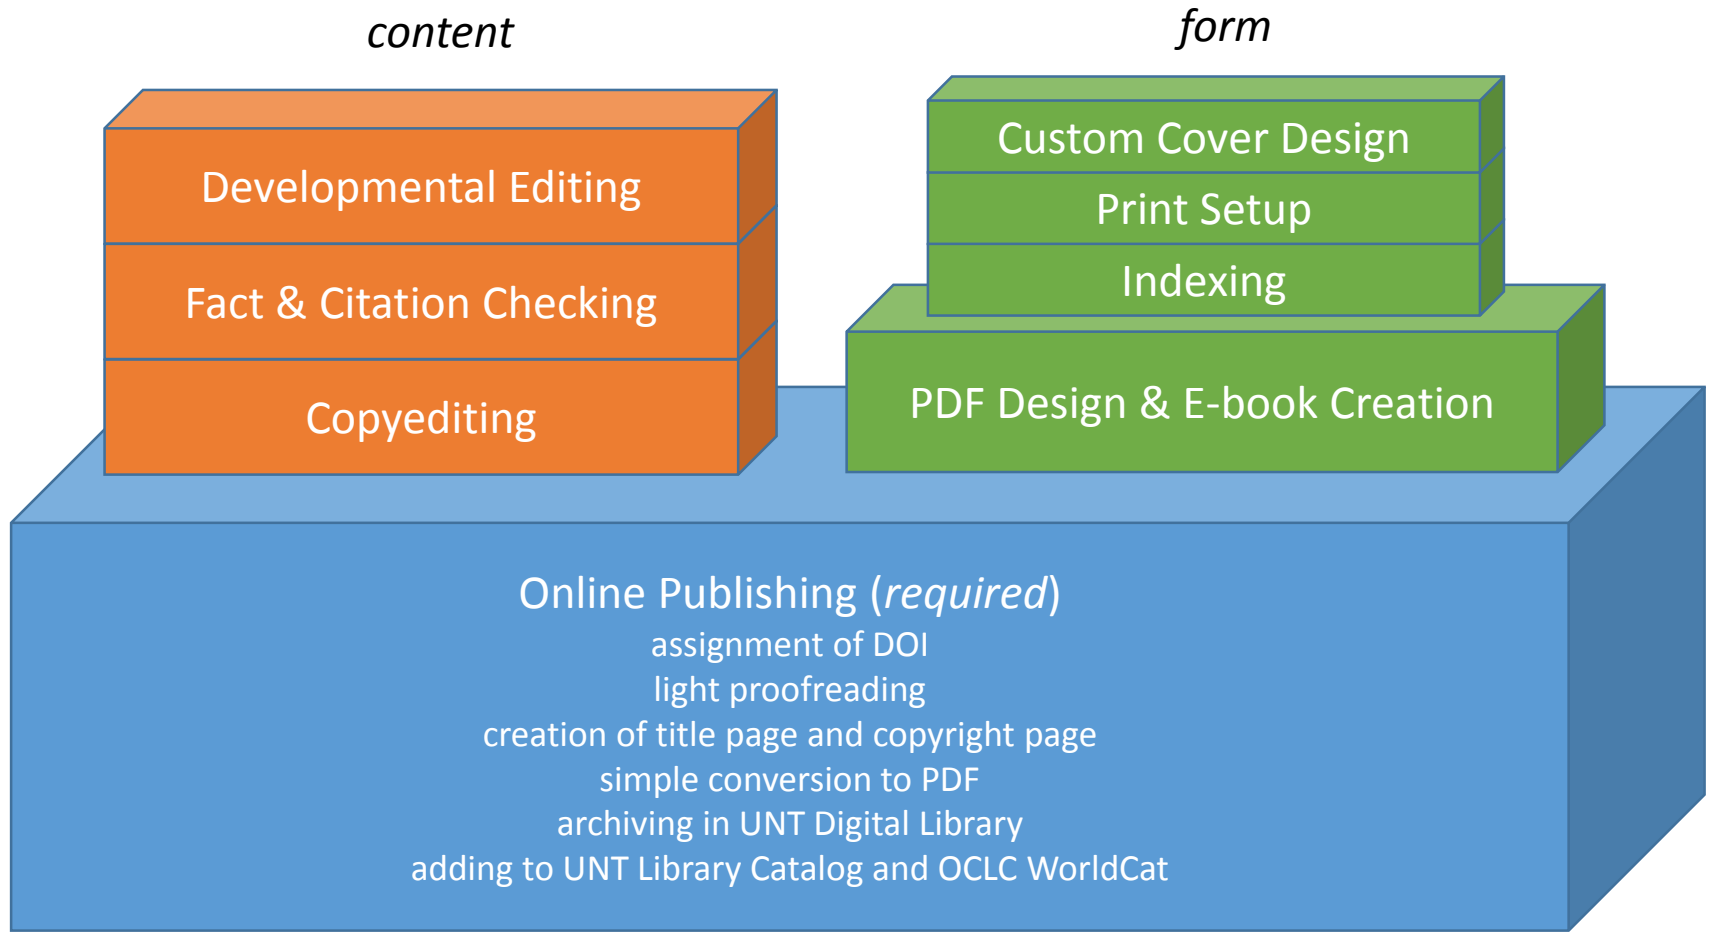

1. provide new forms of scholarly publishing
2. create publications that promote the Libraries' unique collections

(1) will be offered as a service to the community, so that's what I'm going to talk about today.

If you wrote a book and found a publisher who agreed to publish (whether in print or in digital format), what are the functions you would expect your publisher to perform?
